The following competencies have been identified as those that best separate superior from satisfactory job performance in the class of ELECTRICAL TEST TECHNICIAN. (Numbers refers to the order of competencies in the Competency Bank.)

2. Mathematics
4. Analytical Ability
8. Safety Focus
10. Physical Capability
20. Job Knowledge
23. Equipment Operation
26. Electrical Understanding
33. Interpersonal Skills

On the following pages are descriptions of each competency, including a definition, the level of the competency required for the class (italicized, bolded, and underlined), examples of behavioral indicators, and satisfactory and superior performance levels.
2. **MATHEMATICS** – Performs arithmetic or higher-level mathematical computations accurately.

**Level of Competency Required by Job:**

- **Level 1:** Perform arithmetic computations (add, subtract, multiply, divide, ratios, percentages).

- **Level 2:** *Use algebra (substitute numbers for letters in a formula), geometry (angles, distances, area), and/or descriptive statistics (mean/median/mode, standard deviation, range).*

- **Level 3:** Apply and interpret calculus, inferential statistics (t-tests, correlations, ANOVA, multiple regression) or other very high level mathematics.

**Examples of Behavioral Indicators:**

- Quickly and accurately performs arithmetic computations.
- Appropriately selects and applies formulas for stated purpose.
- Correctly identifies an appropriate analysis for a specific purpose and selects the appropriate computer program for computation.
- Accurately interprets and presents results of mathematical/statistical computations.

**Performance Levels:**

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knows mathematical requirements of the job and performs them correctly.</td>
<td>Identifies additional opportunities for the application of mathematics in work.</td>
</tr>
<tr>
<td>Verifies work to ensure accuracy.</td>
<td>Answers questions/trains others to assist them in their use of mathematics.</td>
</tr>
</tbody>
</table>
4. **ANALYTICAL ABILITY** – Identifies, obtains, and evaluates relevant information to establish relationships or patterns, cite causes, and reach logical conclusions

**Level of Competency Required by Job:**

**Level 1:** Recognize similarities/differences in current situation to those previously encountered and is guided accordingly. Apply existing policies correctly. Ask pertinent questions or otherwise seek additional information to formulate appropriate response.

**Level 2:** **Consider multiple, varied factors when evaluating a situation or issue. Seek additional information to provide further insight. Reach conclusions that logically follow from the information obtained.**

**Level 3:** Consider a multitude of diverse factors, their interrelationships, the perspectives of others, alternative courses of action and their likely ramifications when evaluating information to reach a conclusion.

**Examples of Behavioral Indicators:**

- Obtains the necessary amount of relevant information.
- Recognizes the impact of each type of information on conclusions.
- Evaluates the quality/source of information when considering it.
- States the shortcomings of the information and, therefore, the analysis.

**Performance Levels:**

**Satisfactory**

Recognizes available relevant information, seeks additional information to consider, and reaches a conclusion. Provides sound, convincing justification for conclusions, citing relevant data and facts.

**Superior**

Uses a great deal of existing and obtained information and data to develop and evaluate alternatives and arrive at a final conclusion. Provides compelling arguments in support of conclusions.
8. **SAFETY FOCUS** – Performs work in a way that minimizes risk of injury to self or others.

**Level of Competency Required by Job:**

- **Level 1:** Maintain awareness of unsafe conditions and actions to avoid injury.
- **Level 2:** Follow safety rules/procedures; avoid known hazards in the work environment.
- **Level 3:** Carefully follow safety rules and procedures and consistently use all necessary safety equipment.

**Examples of Behavioral Indicators:**

- Wears seat belt.
- Ensures safe physical work environment by taking actions such as eliminating unstable stacks of materials, closing drawers so filing cabinets will not tip over, and keeping pathways clear of tripping hazards.
- Reviews safety procedures before beginning each job with known hazards.
- Follows safety procedures while performing work even when it takes more time.
- Uses safety equipment such as goggles, gloves, and earplugs as required or warranted.
- Frequently checks safety equipment for proper condition and operation.

**Performance Levels:**

<table>
<thead>
<tr>
<th>Satisfactory</th>
<th>Superior</th>
</tr>
</thead>
<tbody>
<tr>
<td>Maintains awareness of personal safety to avoid injury or property damage during all work activities.</td>
<td>“Safety first.” Places avoidance of injury or property damage above all other job requirements. Mentions the need to follow safe work practices to co-workers. Actively seeks ways to avoid injury.</td>
</tr>
</tbody>
</table>
Safety Focus Areas

1. Knowledge of Department of Water and Power Operating Orders and safe work practices related to work authorities including “CLEARANCES” and “OKs TO” sufficient to safely and correctly carry out duties related to working with high and low voltage electrical equipment.

2. Knowledge of safety procedures and practices as required by the California Occupational Safety and Health Administration (Cal-OSHA) when working with or around power and instrument transformers, watthour meters, power circuit breakers, generators, capacitors, and other energized equipment, including the approach and distance considered safe to work around such equipment, and use of personal protective equipment such as hard hat, rubber insulated gloves, protective eyewear, face shield, fall protection harness, and arc resistant clothing sufficient to ensure safety of oneself and others.

3. Knowledge of ladder safety requirements as required by the California Occupational Safety and Health Administration including inspection and maintenance requirements, selection of the proper type of ladder, and appropriate ladder placement, length, height, and angles sufficient to properly use such equipment to ensure safety of oneself.
10. PHYSICAL CAPABILITY – Strength, endurance, flexibility, and/or coordination.

Level of Competency Required by Job:

Level 1: Sitting and/or standing for extended periods of time.

**Level 2:** Awkward body position and/or precise motions required; and/or repeated lifting, carrying, and/or manipulation of objects; and/or walking for extended periods of time.

Level 3: Continuous or extreme exertion of physical effort.

Examples of Behavioral Indicators:

- Sits and may occasionally stand or walk for entire workday (except breaks).
- Walks for the duration of the workday.
- Repetitive motion required to perform task.
- Repeatedly lifts and carries heavy objects.
- Exerts maximal effort for extended periods of time.

Performance Levels:

**Satisfactory**

Performs tasks requiring physical capability satisfactorily and without undue physical stress or harm.

**Superior**

Performs tasks requiring physical capability correctly with relative ease. May be asked to perform the most physically demanding tasks or be sought by co-workers for assistance.
20. JOB KNOWLEDGE – Knows information required to perform a specific job. Includes both widely available courses of study (for example, chemistry, human resources management, graphic arts) and City-specific information (parking regulation and ticketing practices; purchasing procedures; provisions of the City Charter).

Level of Competency Required by Job:

**Level 1:** Knowledge is concrete, factual, and/or procedural and may be defined by the organization. Situations in which it is applied are quite consistent.

**Level 2:** Knowledge is substantive and may be defined by an external trade, field, or profession. Situations in which it is applied vary and, as such, require breadth and depth of understanding.

**Level 3:** Knowledge is abstract, conceptual, and/or complex and may be supported by a well-defined academic discipline or authoritative sources (e.g., laws, ordinances, government guidelines/regulations/codes). Situations in which it is applied may vary greatly or be novel.

Examples of Behavioral Indicators:

- Performs work correctly/avoids technical (job content related) errors.
- Answers technical questions about work accurately.
- Asks few technical questions about the performance of routine work activities.
- Offers advice (“coaching”) to new employees regarding their work.
- Develops training programs for other employees.
- Sought out as a source of information by others.

Performance Levels:

**Satisfactory**
Sufficient job knowledge to perform work correctly independently. Answers technical questions about work correctly.

**Superior**
Expertise in technical job information sufficient to serve as a resource to others. May develop training manuals/programs and/or give internal and/or external presentations related to work.
Job Knowledge Areas

1. Knowledge of equipment and methods used to troubleshoot and/or test the functionality of electric meters, relays, devices, instruments, and other electrical equipment, including multi-meters, ammeters, voltmeters, meggers, frequency meters, oscilloscopes, infrared cameras, insulation resistance meters, and power supplies sufficient to use such equipment in a safe and proper manner to determine if electrical equipment, meters, or devices are in good operating condition or are in need of adjustment, repair or calibration.

2. Knowledge of professional standards related to electrical and electronic testing such as the Institute of Electrical and Electronics Engineers (IEEE), National Electric Code (NEC) and the American National Standards Institute (ANSI) sufficient to safely and correctly perform tests on electrical equipment in accordance with codes and standards.

3. Knowledge of sources commonly associated with causing trouble in electric meters, instruments, and equipment such as faulted, overloaded, or short circuited circuitry sufficient to locate and determine the cause of the issue and recommend an appropriate solution for its repair.

4. Knowledge of hand and power tools used to calibrate, adjust, and repair electrical equipment, systems, and devices, such as nut drivers, wire strippers, terminal crimpers, adjustable wrenches, side cutters, screw drivers, and impact drivers sufficient to use such tools in a safe and proper manner to ensure electrical equipment is in operable condition.
23. EQUIPMENT OPERATION – Operates specialized equipment in performance of job duties.

Level of Competency Required by Job:

Level 1: Operate equipment based on on-the-job training.

**Level 2:** Operate equipment based on attendance at a training program and practice.

Level 3: Operate equipment for which in-depth, complex training was required and which may require certification.

Examples of Behavioral Indicators:

- Operates equipment proficiently.
- Operates equipment with strict adherence to safety procedures.
- Understands the operation of equipment used on the job and correctly answers questions about it.
- Willingly participates in any training necessary to maintain up-to-date knowledge of equipment operation.

Performance Levels:

**Satisfactory**

Operates equipment safely and with a high degree of proficiency.

**Superior**

Operates equipment with extreme proficiency and correctly answers questions about its operation. Trains and/or coaches others in the operation of equipment.
Equipment Operation Area

1. Operation of electrical and electronic equipment including, electric meters, watthour meters, power transformers, power circuit breakers, instrument transformers, generators, and capacitors sufficient to safely and correctly test, repair, adjust, and calibrate such equipment to ensure it is in operable condition.
26. ELECTRICAL UNDERSTANDING – Comprehends the concept and the operation of flow of electrical current.

Level of Competency Required by Job:

Level 1: Know the properties of electricity relevant to the work environment and work to be performed in order to correctly perform work and recognize hazards that will be created by the failure to do so.

Level 2: Sufficient understanding of electricity to recognize problems and determine repair needed to prevent disaster/restore operation.

Level 3: In-depth understanding of electrical principles and phenomena sufficient to design and/or oversee the installation of complex electrical systems.

Examples of Behavioral Indicators:

- Ensures safe physical work environment by taking actions such as eliminating exposed electrical wire, faulty connections, empty sockets, and overloaded circuits.
- Recognizes the danger of fire from faulty electrical installations.
- Uses tools, equipment, and instruments properly to accomplish electrical work correctly and safely.
- Systems designed and/or for which installation is overseen perform as intended upon completion.

Performance Levels:

Satisfactory

Understands the operation of electricity sufficient to readily learn and perform electrical work.

Superior

Displays exceptional insight into the operation of electrical systems, and makes correct inferences regarding them. Promptly and accurately troubleshoots problem.
33. INTERPERSONAL SKILLS – Interacts effectively and courteously with others.

Level of Competency Required by Job:

**Level 1:** *Interact with members of the workgroup, supervision, and/or the public in a cordial, service-oriented manner.*

Level 2: Interact across department lines and with appointed City officials, and/or members of the public, at times under adversarial circumstances, in a cordial, respectful manner.

Level 3: Interact with appointed and elected City officials, department heads, representatives of external organizations, and/or the media in a cordial, effective manner.

Examples of Behavioral Indicators:

- Works well with others toward mutual objectives.
- Does not arouse hostility in others.
- “Disagrees without being disagreeable.”
- Elicits acceptance/cooperation from others.
- Affords all individuals respect, regardless of their role or status.
- Effectively addresses concerns of politicians or others who may have their “own agenda.”

Performance Levels:

**Satisfactory**

Behaves in a courteous, respectful, cooperative manner toward co-workers, other City employees, and members of the public.

**Superior**

Facilitates positive interpersonal relations within/among workgroups and toward members of the public. Adept at finding similarities and grounds for cooperation/mutual benefit.
